EVERLITE +

FULL

PERFORMANCE

EVERLITE + allows you to work comfortably and with agility, ensuring the highest levels of antislip performance.

Description

EVERLITE + is an occupational shoe, produced entirely from polymeric materials and has the following components:

- Evergrip™ rubber track;
- Antistatic device;
- Removable insole;
- Ventilation perforations - in the insole and shoe.

Users

EVERLITE +, is ideal for professional activities in which professionals spend many hours standing and tend to have fatigue and discomfort in the feet and legs, namely:

Hospitals and Other Healthcare Institutions

Catering industry

Cleaning Companies

Geriatrics and Physiotherapists

Specifications

Super Light

Feelite™ technology produces remarkably light, resistant and comfortable footwear.

Removable Insole

It's detachable to allow a deeper cleaning.

Shock Absorption

The special design helps to reduce the occurrence of micro-lesions in tendons, bones and joints, and the feeling of tired legs.

Antistatic

Promotes the dissipation of accumulated static electricity.

Upper Liquid Protection

Avoids the entrance of liquids inside the shoe.

Closed Heel

Additional support for the moments that require extra agility.

Breathable

Regulates the temperature and humidity of the foot.

Washable

The footwear can be machine washed up to 50°C.

Antislip

The sole is designed to reduce the risk of slipping.

Materials and Technologies

EVERLITE + is made with **Feelite™** technology. Its material is super lightweight and provides extreme comfort.

The geometric design and the exclusive chemical formula used in the production of the rubber track of **EVERLITE +** outsole, provides excellent adherence to the ground, reducing the risk of slipping. **EVERLITE +**'s Evergrip™ outsole accomplishes SRC antislip level.

Care and Cleaning

Wash: Machine washable up to a maximum temperature of 50°C. The removable insole must be washed inside the clog.

Dry: Wipe with a cloth or dry at room temperature.

Attention

EVERLITE + resists several washings at 50°C in washing machine. It is not recommended the use of bleaching agents during washing machine cycles at 50°C.

To keep your shoes new and beautiful for much longer, it is essential to follow some recommendations: Avoid getting your shoes wet, but in case this occurs, never place them in the sun. Let them dry in the shade and also away from any other source of heat, because heat damages the materials, the colour and the texture. A soft cloth is the main ally of this type of shoe and its cleaning should be done weekly or whenever necessary.
